ADMIRAL® | FILTRATION SYSTEMS

SERIES 'EO' PUMP

with SERIES 'S' FILTER CHAMBER

COMPACT, ECONOMICAL FILTRATION AND PURIFICATION

FOR IN-TANK OR OUT-OF-TANK INSTALLATION

Admiral Filtration Systems systems are available for a wide range of tank sizes from laboratory scale to large production requirements. Corrosion resistance is achieved by the use of variety of engineering plastics such as CPVC, PVC, PP, and PVDF with stainless steel external parts.

Admiral Filtration Systems consists of a separate vertical pump and filter chamber sold as a set with system pricing providing savings over individual component prices.

- **Flow rates to 7000 GPH**
(31,500 LPH @ 50Hz)
- **Non-metallic solution contact**
PVC, CPVC, Polypropylene, or PVDF systems
EPDM elastomers (Viton optional)
- **Runs dry without damage**
- **Rugged construction designed for minimum maintenance**

NOTE:

Hose, pipe and fittings required to connect the pump to the filter chamber and plumb to the tank must be ordered separately. Request Bulletin A-213.

TYPICAL INSTALLATIONS

PUMP AND FILTER IN TANK

PUMP AND FILTER OUT OF TANK

**PUMP IN TANK AND
FILTER OUT OF TANK**

¹ For PVC chamber, change first **C** to **P** in System Number.
For polypropylene system, change first **C** to **PP** in System Number.
For PVDF system consult Sales Department.

² Motors less than 1.0 HP are 115-230/1/50-60, TEFC.
Motors 1.0 HP and above are 230-460/3/60 or 190-380-415/3/50, TEFC.

SERFILCO engineers have designed a line of unitized, drop-in Admiral filtration systems to meet your needs. These proven designs are the result of 50 years of experience in developing chemically resistant pumps and filters. Shown below are some of the models that are available. They provide a choice of capacities, materials of construction and installation possibilities.

ADMIRAL 'EOL'

Pump: Series 'EO'
Chamber: Series 'L'
Flow Rates: Up to 1,000 GPH

See Bulletin F-514

ADMIRAL 'EOS'

Pump: Series 'EO'
Chamber: Series 'S'
Flow Rates: 1,800 to 4,200 GPH

See Bulletin F-510

ADMIRAL 'EHJ'

Pump: Series 'EH'
Chamber: Series 'J'
Flow Rates: 5,800 to 10,000 GPH

See Bulletin F-508

**Everything you need to install your
Admiral Filtration System can be
found in Bulletin A-213.**

- Fittings
- Pipe
- Hose
- Clamps
- Strainers
- Valves
- Tank connections
