

SERFILCO®

RE-USABLE SLEEVE-TYPE FILTER CARTRIDGE

BULLETIN
M-108B
SEPT. 1992

ECONOMICAL ALTERNATIVE TO DISC-TYPE FILTERS

- **Large surface area**
Each 10" length provides .6 square feet
- **CPVC and polypropylene construction**
Wide range of convenient sizes
Sized to fit depth filter housings. Sleeves are 2½" diameter by 10", 20", 30", 40" or 50" length.
- **Interchangeable**
Sleeve cartridges are interchangeable with any regular cartridge of corresponding length and diameter.
- **15 micron seamless sleeve**
Designed for precoating with all types and grades of filter aid to provide a high quality filtrate; however, may also be used without precoat.
- **Easy to clean**
As the dirt load builds up on the surface, the filter may be periodically backwashed. Whatever backwashing that is done will lengthen the time before the filter chamber must be opened for rinsing of the individual sleeves.
- **Re-usable**
Individual sleeves may be removed from their supporting cores and rinsed, soaked in acid, or machine laundered until clean. They can immediately be replaced on the cores and placed in the filter chamber for re-use.

The **SERFILCO Sleeve-Type Filter Cartridge** may be used uncoated or with filter aid or filter aid with carbon. As the filters become dirt-laden, they may easily be backwashed, or the sleeves may be removed, rinsed or laundered and put back into service.

CLEANABLE SLEEVE CARTRIDGES

For installation into existing depth cartridge filter chamber.

SLEEVE LENGTH X 2-1/2" DIA.	SURFACE AREA SQ. FT.	FOR CHAMBER STYLE		REPLACEMENT
		SINGLE COLUMN	MULTIPLE COLUMN	SLEEVE ONLY
PRICE CODE NUMBER				
10"	0.6	99-0701	99-0704	88-0161A
20"	1.2	99-0702	99-0705	88-0162A
30"	1.8	99-0703	99-0706	88-0163A
40"	2.4	99-0715	99-0707	88-0164A
50"	3.0	—	99-0708	88-0165A

This unique design of filter cartridges will not only help reduce operating costs, but will simplify and speed up any pre-coat type filtration process.

Each filter cartridge consists of a polypropylene top and bottom seat, a polypropylene woven fabric sleeve, a polypropylene support mesh, a CPVC support column, EPDM "O"-rings and a vinyl coated spring to assure good sealing.

These filter cartridges can be quickly and easily assembled and re-assembled - no tools are required.

OPTIONAL

DESCRIPTION	PCN
Viton elastomers for sleeve assembly	O-VSL

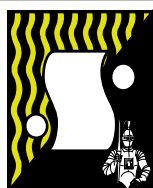

BULK FILTER AID

50 lb. bag diatomaceous earth

RETENTION	PRICE CODE NO.
1 micron	33-0902
3 micron	33-0901
