SERFILCO INVITES YOU TO JOIN US IN OFFERING THE METAL FINISHING INDUSTRY THE MOST COMPREHENSIVE LINE OF PUMPS, FILTRATION AND EDUCATOR AGITATION SYSTEMS AVAILABLE IN THE MARKETPLACE.

EVERY TIME THAT YOU PROVIDE US WITH A LEAD, YOU WILL RECEIVE A WRITTEN NOTIFICATION THAT IT HAS BEEN REGISTERED. WE WILL SEND YOU COPIES OF ALL QUOTATIONS AND AN ACKNOWLEDGEMENT WILL BE SENT WHEN AN ORDER IS RECEIVED. COMMISSION CHECKS WILL BE SENT UPON RECEIPT OF PAYMENT.

STOP BY OUR BOOTH #207 AT SUR/FIN 2006 AND ASK FOR DETAILS ON REGISTERING FOR THIS PROGRAM.

## Filtering BEFORE the Plating Tank approach can help:

- Reduce rejects
- Conserve water and chemicals
- Reduce waste treatment costs
- Deliver a lower end use cost per piece plated
- Achieve better plating ... FASTER

## RESULT:

A higher profit for your customer and fewer service calls for you!

## CUSTOMIZED FILTRATION AND PURIFICATION SYSTEMS... for optimum results

**GRAVITY PLUS FINAL TRAP PRESSURE FILTRATION** for recirculation handles heavy sludge loads and results in exceptional clarity.

**PARALLEL FLOW** uninterrupted flow with lowest pressure drop to meet any flow capacity.

**SERIES FLOW** with step-down particle retention increases solids holding capacity, minimizes service required, achieves desired clarification.

**COMBINATION OF PARALLEL AND SERIES** to meet higher demands of any one functional requirement.

Serfilco recognizes the fact that not every liquid clarification requirement can be met with a pre-packaged filtration system. That is why we offer a range of pumps and filter chambers and a broad selection of filter media, such as bags, discs, depth and pleated cartridges, cleanable sleeves and carbon or resin purification to give you the flexibility you need to meet your clarification / purification requirements. By using different combinations of chambers and media, configured for recirculatory or in-line filtration, your customer can achieve the level of clarification / purification desired.

Serfilco has the engineering know how and technical expertise to recognize and solve your customers filtration and purification problems. So give us the application and let us design a system to meet your customers special needs.
